Mr. Moore:

Texas Molecular has conceded to the position of National Oil Recovery Corporation set out in my letter of October 1, 2007, with one minor exception, which will not hold up the disposition of the liquid waste in the remaining tanks.

Mr. Halasz has worked out with Texas Molecular's manager in Corpus Christi for pick-ups and disposal to resume this Thursday.

If you have any questions regarding the status of the Texas Molecular situation, please advise.

Richard F. Bergner
